

## FINANCIAL AND COMMERCIAL.

MIDAY, April 17—6 P.M.

The public mind continues so much absorbed by the recent tragedy at Washington that business, both in and out of Wall street, is to a great extent suspended. All the markets have been extra-holiday under this state of feeling to-day, and there is no prospect of the full resumption of regular business until Friday.

The stock board held a session this morning, but declined to dispense with the afternoon session, called in interval prior to the obsequies at Washington, and meanwhile to limit transactions as much as possible, and to dispense with the publication of the general list of sales. This was done advisedly.

Received.—Receipts, 1,132 lbs. The demand for grain was the same yesterday, but the market was generally quiet. The market is 400 lbs. higher on the 15th, and 200 lbs. lower on the 16th. The market is 200 lbs. lower on the 17th, and 200 lbs. for free.
